Due Monday, April 24 at 11:59PM

The purpose of this homework is to help you with the final self-assessment required at the end of the course.

Please submit a one-page sample of your technical writing, drawn from your current writing project. Pick a sample that illustrates the progress you have made during the year. The sample will go to one of your peers for comparison with your initial writing sample. If you wish to remain anonymous, do not put your name on your sample.

This exercise will be graded only as “submitted” or “not submitted.”
